

**NOVEMBER 13, 2024**

**ROOM 214**

**PASADENA CONFERENCE CENTER  
300 E GREEN STREET  
PASADENA, CA 91101**

Join us for a morning of sustainability and learning at the Green California Schools and Higher Education Summit. The morning will be jam packed with environmental learning and sustainable career education for students to be able to have knowledge as to their potential future paths and immerse them into the world of sustainability.

10:00am - Students arrive.

10:00am – 10:05am - Students check in and get their badges.

10:05am – 10:45am - Guided tour of the exhibit space, this includes innovative technology briefings.  
10:45am – 11:00am - California Conservation Corps educational briefing on their program and career opportunities.

11:00am – 12:30pm

The US Green Building Council of California will be presenting the Sustainability Career Pathways workshop, focused on green career opportunities. Students will understand how our economy is shifting and what new jobs are being created each day in sustainability. Through discussion and real-world examples students understand that all jobs are green jobs and how their passion can align with the needs of the growing green economy. All participating classrooms will receive an interactive board game to better understand the solutions for climate change called, Climate Cooldown.

The workshop familiarizes students with the goals, principles, and practical aspects of sustainability, covering a diverse range of topics including climate change, water, energy, air quality, waste, transportation and career pathways.

### **LEARNING OBJECTIVES:**

- 1) Define sustainability and climate change
- 2) Understand the impact that our lifestyles and choices have on one another and the environment
- 3) Identify climate solutions in action and ways to live in balance with nature and society
- 4) History of environmental justice issues and how they affect our health and community.
- 5) How to achieve sustainability goals through green building and how to make buildings more efficient.
- 6) Gain awareness of green career pathways and how all jobs will be green jobs.

12:30pm – 1:00pm – Lunch in the session room (Lunch is provided by the school or purchased at the Concession stand)

1:00pm - Back to school
